

CERTIFICATE OF ACHIEVEMENT

This certificate is awarded to

Syed Arbaz Hussain Shah

for successful completion of

AI Fundamentals (AI-900)

OUTLINE:

This AI Fundamentals course, aligned with the Microsoft Azure AI-900 certification, provides basic training in Azure AI services and prepares students for the certification exam.

CONTENTS:

Introduction to AI: Overview of artificial intelligence and its importance in modern technology.

Artificial Intelligence in Azure: Introduction to AI services in Azure, including Azure Machine Learning and Cognitive Services.

Computer Vision: Techniques and applications of computer vision, including image recognition and processing.

Natural Language Processing: Understanding and building applications for language understanding, text analysis, and language generation.

Document Intelligence and Knowledge Mining: Techniques for extracting and analyzing information from documents, and using knowledge mining for data insights.

Generative AI: Exploration of generative models and their applications, including creating new data and content.

AI Ethics and Societal Impact: Examination of the ethical considerations and societal impacts of AI, including bias, fairness, and responsible AI practices.

This course was held for a period of 44 hours from 19/09/2024 to 12/12/2024.

This **certificate of achievement** confirms that the student has achieved all the learning objectives via assignments and/or a final project.
